# CCAvenue MCPG - Magento

Payment Gateway Module(INR)

Installation Guide

[www.bluezeal.in](http://www.bluezeal.in)  
BlueZeal SoftNet

### **Mandatory requirements:**

Please cross check with your hosting service provider that latest **iOnCube PHP Loader** is installed on your server or not. If not then please request them to install/update according to their requirements. All loaders are available at here [www.ioncube.com/loaders.php](http://www.ioncube.com/loaders.php)

You don't need to install it; it is LAMP server's standard plugins, if it is absent in your server then you will get error after installation of the CCAvenue module.

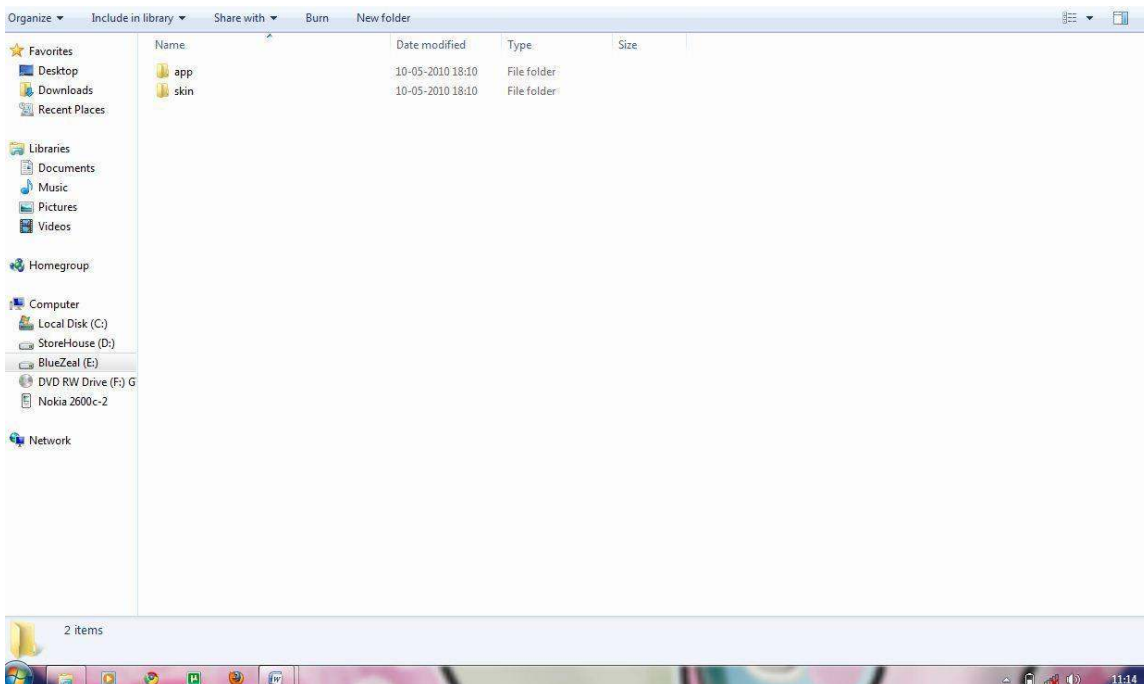

Our module is prepare in PHP version 5 we have module also for PHP 3.4 if you need then please contact with our support team at <https://www.bluezeal.in/support>

### **Module Installation process:**

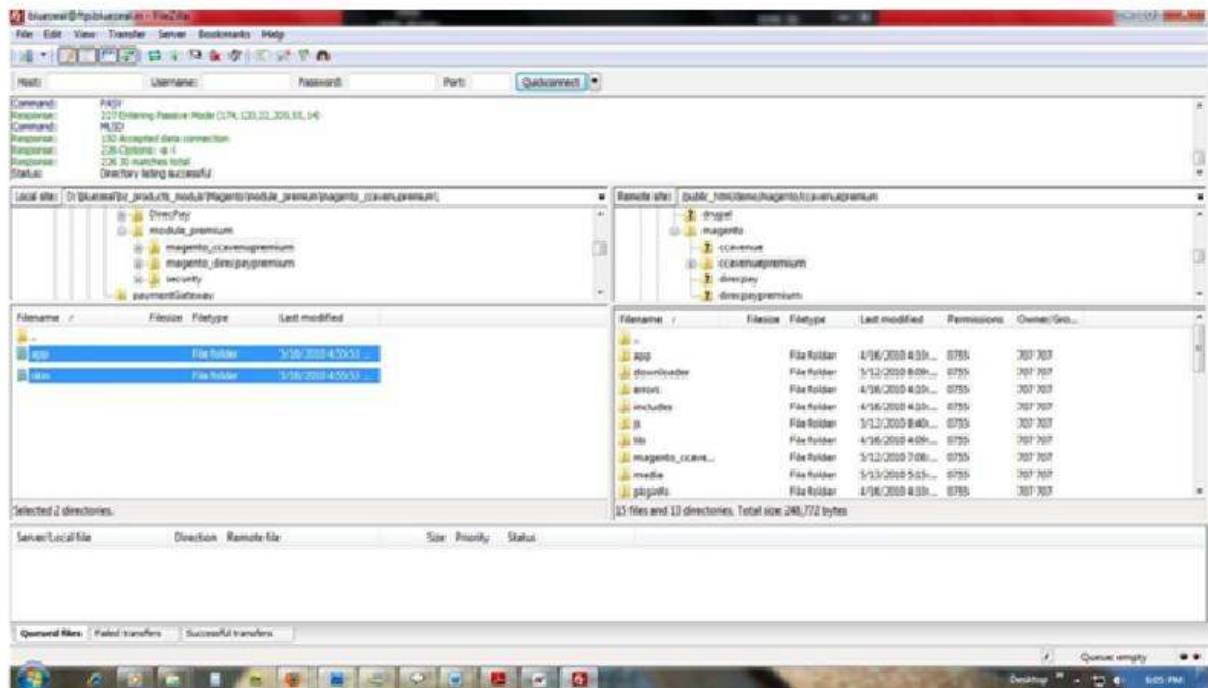

**Step 1:** Install Magento 1.8.1.0 on your server.

**Step 2:** Unzip the “magento1.8.1.0\_ccavenueMCPG\_payment\_module.zip”

**Step 3:** Upload the “app” and “skin” folder into your Magento root directory through FTP client.

**step 4:** You can use **FTP Client** <http://www.filezilla-project.org> ; it is for free or any other FTP Client.

**Step 5:** If the front end template is different please copy the 'ccavenuepay' folder to the site template folder.

e.g.-

"app\design\frontend\base\default\template\" folder files and paste it into the corresponding template folder path.

"app\design\frontend\[template\_folder]\[template\_sub\_folder]\template\"

As well as skin folder too.

## Step 6: Now go to your Magento admin and Flush Cache Storage.

The screenshot shows the Magento Admin Panel interface. At the top, there's a navigation bar with tabs for Dashboard, Sales, Catalog, Mobile, Customers, Promotions, Newsletter, CMS, Reports, and System (which is highlighted). Below the navigation bar, there's a message area with a 'Latest Message' and a warning about indexes. The main content area is titled 'Cache Storage Management' and features two buttons: 'Flush Magento Cache' and 'Flush Cache Storage'. Below these buttons is a table with columns for 'Cache Type', 'Description', 'Associated Tags', and 'Status'. The table lists several cache types, all of which are 'ENABLED'. At the bottom, there's an 'Additional Cache Management' section with two buttons: 'Flush Catalog Images Cache' and 'Flush JavaScript/CSS Cache'.

Cache Type	Description	Associated Tags	Status
<input type="checkbox"/> Configuration	System(config.xml, local.xml) and modules configuration files(config.xml).	CONFIG	ENABLED
<input type="checkbox"/> Layouts	Layout building instructions..	LAYOUT_GENERAL_CACHE_TAG	ENABLED
<input type="checkbox"/> Blocks HTML output	Page blocks HTML.	BLOCK_HTML	ENABLED
<input type="checkbox"/> Translations	Translation files.	TRANSLATE	ENABLED
<input type="checkbox"/> Collections Data	Collection data files.	COLLECTION_DATA	ENABLED
<input type="checkbox"/> EAV types and attributes	Entity types declaration cache.	EAV	ENABLED
<input type="checkbox"/> Web Services Configuration	Web Services definition files (api.xml).	CONFIG_API	ENABLED

- I. Login your magento Admin using your admin ID and password.
- II. System => Cache Management.
- III. Select “All Cache” option as shown above.
- IV. Click “Flush Magento Cache” and “Flush Storage” to clear the cache.
- V. Select “Save cache setting” to save your selection.
- VI. Now your module is installed. Now you need to configure it for your store with ccavenue credential details.

**Step 7:** Go to your Magento back end. Go to **System>Configurations**. Select “Payment Methods” option in the left block under “Sales” option and select **“CCAvenuepay MCPG Payment”**.
